

Zip code and state information are not displayed in the listing details page

Description

Preconditions:

Admin is logged in and on /dashboard page
At least one listing should exist

Steps to Reproduce:

- 1. Navigate to /dashboard/real-estate/list
- 2. Click on the "Three dots" button on the right side of any published listing and click on the "Edit" option
- 3. Observe the data from the "Title", "Zip Code" and "State" fields
- 4. Open the Home page in another window in the browser
- 5. Go to the "Featured Listings" page
- 6. Type in the "Search" field the data from the "Title" field that you observed in step 3
- 7. Click the "Start Search" button
- 8. Click "More info" button under the listing from step 3
- 9. Observe the "State" and "Zip/Code" information in the details section of the listing

Expected Result:

The listing details page is displayed, showing all data, including:

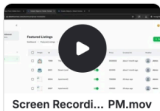

- Title
- Address
- Zip Code
- State
- Asking price
- Lot size
- Garage
- Bathrooms
- Square feet
- Listing date
- Bedrooms
- Description
- Image

Actual Result:

The listing details page is displayed, showing all data, except:

- Zip Code
- State
